

SplitMoon Theatre aims to create and perform highly imaginative - new and little known - dramatic works, with a cosmopolitan dimension and an emphasis on language and ensemble acting. The company receives no public funding and to achieve even basic production levels is extremely costly. If you believe as passionately as we do about the survival of theatre, its role in society, encouraging talented actors and the excitement of the unfamiliar and would like to play your part then please support us with a donation.

All donations received go directly towards production costs and fees and not into overheads. We strive to remunerate our creative team wherever possible but all the management costs of the company are currently covered voluntarily.
